ALBUQUERQUE DISGRACED.

Attack Upon Volunteers from That City in the Democrat Rouses Indignation in Santa Fe—Captain Cooper Com-pliments Men Highly—Men, Not Sissies, Wanted.

The Albuquerque Democrat devotes considerable space to adverse criticisms of Captain Luna's volunteer's. They are referred to as "tenderfoot cowboys" and the prediction offered that very few of them would pass muster.

As a matter of fact, Captain C. L. Cooper today complimented Captain Luna on the splendid physique of his men and expressed great satisfaction at their deportment. Out of 15 men examined this forenoon 13 were accepted for service and even better results are anti-cipated from further examinations. Citizens of Santa Fe are highly indig-

nant over the cowardly course pursued by the Democrat, and the feeling that the perpetrator of such a dastardly outrage merits severe punishment, is general. A man whose patriotism runs so low that he can see nothing commendable in the action of a person who offers to sacrifice his life on the altar of his country's honor and glory, is a yellow cur of the most despicable variety and his contracted brain, if he has such as article, has never experienced a respectable or honorable motive. Regard-less of previous conditions in life, the man who offers all that Providence and man who offers all that Providence and I tried all of them with indifferent troubles and I tried all of them with indifferent troubles. pared to the beer-guzzling stiff who sits in the back room of a cheap joint and overheard a conversation between two fight's the nation's battles with his ladies, one of whom had suffered severe mouth; or the simpering counter-hopper who waits for a commission as brigadier

general before daring to risk his worth-

less neck in real danger.

The Democrat has heaped disgrace on publish to the world the news that a recruiting office was opened there and that it was necessary to send an irresponsible crowd of "hobos" to make a showing. Where were all the willy-nillys of long pedigree and starched bravery? Were they hanging onto mama's apron strings? If Albuquerque was anxious to send a crowd that could shoot glass halls from bucking broneos. shoot glass balls from bucking broncos, ly, and whenever I see any symptoms of beef, veal, mutton, lamb and pork, go to it do so? And if it wanted the glass bot-tle and rubber hose brigade why didn't the citizens run them out of town and health and can eat anything and relish force them to show the stuff that their what I eat; my digestion is absolutely prided ancestry and clean social enperied as far as I can judge from my prided ancestry and clean social enprobable that the local kickers who are anxious to fight—after the war is over—only need a brass medal dangling from their immaculate shirt fronts and tin sword whacking away at the slack of their trousers to make them as happy, contented and patriotic as a Guiana native with a stove-pipe hat on his sim—I believe they are sold by all druggists der meal in the city.

The Exchange Hotel,

ple cranium.

The nation needs men, not sissies, in this hour of danger, and the venomous vermin who attack the reputation of men courageous enough to brave the dangers of shot and shell are too contemptible and traitorous to merit consideration from patriotic and decent citizens. Keep the willy boys at home. They will be needed to parade in the parks this summer. But send to the front more volunteers like the men comprising Captain Luna's company. They will protect American honor and independence.

More Rot. Rumor has it that a well known society lady of Santa Fe has subscribed \$4,000 to the cause of Spain against the United

States.—Albuquerque Democrat.

The Domocrat man has missed his calling. The Spanish government needs just such "fake" correspondents for creating articles to bolster up Spanish

Mr. R. W. Wincherdon, a commercial traveler from Birmingham, whose business keeps him almost constantly on the road, relates in the Sunday News the dangers to health resulting from constant change of residence and the way he overcame the usual injurious effects.

He says: One thing people traveling cannot very well avoid is the constant change in water and food; the stomach never has an opportunity to become ac-customed to anything, and in a few years or much sooner the average trav eling man becomes a hopeless dys For several years I suffered more or
